Real Wood Veneer

All Topakustik products are available in any common wood veneer. Specification should include Veneer species, cut, and matching. Wood is a natural product as every log and flitch is unique. We hand-select custom veneer for every project, therefore we are not limited to "standard" options.

*Contact us for further information/options

Melamine

All Topakustik products are available in 12 attractive economical melamine finishes that are stocked and available for products. These finishes include 9 faux wood finishes, 2 faux stone melamine finishes, and solid white. See this [Melamine PDF](#) for more information.

*Other HPL options are also always options but not stocked as standard

Paint

All Topakustik products are available in ANY paint color. Please specify paint manufacturer, color, and number and our material can be matched to your color.

*Standard white is given as RAL9010

****We also will work with your third-party supplier of finishes****
